„ DEMOCRACY CHRISTMAS TREE “

(liet. k. „Demokratijos Kalėdų eglutė“)

The school creates conditions for developing and fostering of democratic values, helps young people to develop the ability to base their life on conscious democratic values. While creating democratic relations, it encourages to keep to them in internal life of the community, fosters honesty as the basis of a democratic lifestyle, and relies on the respect, openness and sincerity of community members. This can be stated as the most important condition for fostering democracy, because only in such a relationship students and teachers communicate and cooperate, support each other, trust each other, respect and tolerate each other as partners of the educational process.

While analysing democratic values in Citizenship lessons, second form students organised a competition of creative works
